Encryption by TekNet

Encryption of your data protects you from prosecution under the GDPR if your device is lost or stolen.

TekNet will supply and install data encryption software from ESET and provide personal support and training.

- Full laptop and PC encryption
- Removable media encryption
- Go portable encryption
- File & folder encryption
- Email encryption
- Remotely managed for you by TekNet

ESET Encryption is certified to FIPS 140-2 level 1 standard. Validation against the FIPS 140-2 standard is required for all US federal government agencies that use cryptography-based security systems.
